Embargoed Draft CEHC Impact Report May 2017 no cover kh edits (002).docx

Hi Dana,

Rick asked me to see if HED could review the attached draft report from Nica Louie at NIEHS' Children's Environmental Health and Disease Prevention Research Centers/NCER/ORD. They drafted this environmental risks report on the findings from children's centers around the country and asked for OPP review. Nica sent the report to CSB (Kaythi Han), requesting OPP review. Kaythi highlighted the pesticide content in the report and made some comments and in some cases, suggested edits. Anna is also reviewing it as well. Nica is asking for any comments by next Wednesday. Can you someone from HED review it too?

Rick and Anna,

Kaythi Han (CSB) received an email from Nica Louie, NIEHS' Children's Environmental Health and Disease Prevention Research Centers/National Center for Environmental Research/ORD. They are writing an environmental risks report on the findings from children's centers around the country and asked for OPP review of the attached (second attachment) draft. Kaythi reviewed it for pesticide content and made some comments and in some cases, suggested edits. Among a few other pesticide topics, the report mentions WPS - Kaythi is asking Kevin to review this language. The report findings link the following:

## Ex. 5 - Deliberative Process

How would you like this review handled? Should we send it through HED? Anna – would you cover the review? They're asking for OPP comments by next week.

=====

Dear All -

The EPA/NIEHS Children's Centers Impact report is ready for a final round of comments before review! Please make any suggested edits/comments in the attached Word document. Comments must be received by **Wednesday, May 24**. The final report will be professionally formatted in InDesign, however a PDF file is provided to give you a rough idea of how the report will be organized.

**Sections being reviewed\*\*:** (1) Environmental Exposures, (2) Health Outcomes, and (3) Hallmarks of the Children's Centers

**Request:**

- Can information be added/changed to make the sections more relatable?

- Is there any information that should not be included, or information that should be more emphasized?

**Please note that:**

- The Children's Centers will be reviewing the reports for scientific soundness and clarity
- The front matter and appendices will be sent out separately for comment;
- Acronyms will be defined properly when the order of the report is finalized

Please copy Hayley ([aja.hayley@epa.gov](mailto:aja.hayley@epa.gov)) and Emily ([Szwiec.emily@epa.gov](mailto:Szwiec.emily@epa.gov)) on your responses. We are grateful for your thoughtful contributions and your help!

Thank you!  
- nica
